**Standard and Mini Split Line Sets**

Streamline® Line Sets have been the industry leader for decades. We leverage our many years of experience and expertise producing copper tube in every line set we make.

**Advantages**

- Only Line Set UL Recognized to 700 PSI
- Integrated production processes eliminate kinking and work hardening associated with other line sets
- R410A Engineered and Tested
- 10 year warranty
- Made in USA

Another Industry First: UL Recognized Copper Tube & Fittings

Streamline® line sets, refrigeration copper tube and copper fittings are the industry's first such products to be UL Recognized to 700PSI*. This extensive testing and additional third party verification through Underwriters Laboratories (UL) is our commitment to assuring customers that our products will meet the higher pressure demands of modern refrigerants.

*Select sizes; operating pressures of 700PSI at 250°F.
Airefco has a full-line up of affordable direct replacement and aftermarket motors for every job.

*See page 10-11 for details
